ELEVATE EVERY EXPERIENCE™

Unmatched Genetics

Irodori in Japanese means to make something more beautiful or interesting. Our new Irodori Wagyu™ program takes that concept and introduces a new level of quality by crossing Wagyu cattle with renowned Black Angus — a hallmark of the Creekstone Farms brand — resulting in a rich, indulgent eating experience that goes beyond all expectations.

The unique fat composition renders at a lower heat and melts into a soft, buttery texture that enhances the overall flavor profile.

Why Now?

As consumer preferences evolve, there is a growing demand for premium beef options like Wagyu. With its exceptional flavor and growing awareness, shoppers and diners are willing to invest in superior-level dining experiences. Several key factors are driving this trend:

- Respect for exceptional marbling and unique flavor profile of Wagyu
- Willing to pay premium prices for heavily marbled, high-quality meat
- Growing awareness of health benefits associated with Wagyu

Quality Starts With Our Cattle

Our cattle are raised by family ranchers in the heartland of America on the sprawling Great Plains of the Midwest and fed a nutritious corn-based diet, ensuring abundant marbling and flavor that is bold yet refined. This quality is reflected in every cut and graded into Silver, Gold and Platinum tiers.
